## Bathroom Aids: Bathtub Transfer Bench, Bathtub Seat, Bath/Shower Chair

### ▼ Description

Accessory equipment utilized in the bathroom that increases comfort of use, includes items such as bathtub lifts, bathtub seats, tub rails, tub chairs, etc.

### ▼ Policy

Bathroom aids are considered reasonable and necessary for members if the bathroom aid is primarily medical in nature, not normally for use in the absence of illness or injury, and if it is necessary for daily activities related to health and personal hygiene. Bathing and toileting are among the activities of daily living considered essential to health and personal hygiene.

See Commode policy for additional items.

Coverage Criteria:

Bathtub seats (bath bench, tub chair, bath/shower chair/bench are considered reasonable and necessary if the member is unable to bathe/shower without being seated.

Tub transfer bench, Bathtub transfer board are considered reasonable and necessary if the member is unable to transfer to and from tub.

### ▼ HCPCS Level II Codes and Description

E0247	Transfer bench for tub or toilet with or without commode opening
E0248	Transfer bench, heavy duty, for tub or toilet with or without commode opening
E0625	Patient lift, bathroom or toilet, not otherwise classified

### ▼ Important Note

Northwood's Medical Policies are developed to assist Northwood in administering plan benefits and determining whether a particular DMEPOS product or service is reasonable and necessary. Equipment that is used primarily and customarily for a non-medical purpose is not considered durable medical equipment.

Coverage determinations are made on a case-by-case basis and are subject to all of the terms, conditions, limitations, and exclusions of the member's contract including medical necessity requirements.

The conclusion that a DMEPOS product or service is reasonable and necessary does not constitute coverage. The member's contract defines which DMEPOS product or service is covered, excluded or limited. The policies provide for clearly written, reasonable and current criteria that have been approved by Northwood's Medical Director.

The clinical criteria and medical policies provide guidelines for determining the medical necessity for specific DMEPOS products or services. In all cases, final benefit determinations are based on the applicable contract language. To the extent there are any conflicts between medical policy guidelines and applicable contract language, the contract language prevails. Medical policy is not intended to override the policy that defines the member's benefits, nor is it intended to dictate to providers how to direct care. Northwood Medical policies shall not be interpreted to limit the benefits afforded to Medicare or Medicaid members by law and regulation and Northwood will use the applicable state requirements to determine required quantity limit guidelines.

Northwood's policies do not constitute medical advice. Northwood does not provide or recommend treatment to members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.
