Wheelchair Cushions/Seating Systems

Description

Specialized pressure-reducing cushions and/or seating systems are used to prevent the formation of pressure ulcers and allow for proper positioning of the individual in a wheelchair.

Policy

Wheelchair cushions and seating systems are considered **reasonable and necessary** for Members that meet coverage criteria.

Policy Guidelines

Coverage Criteria:

A general use seat cushion (E2601, E2602) and a general use wheelchair back cushion (E2611, E2612) is covered for a member who has a manual wheelchair or a power wheelchair with a sling/solid seat/back which meets coverage criteria. If the member does not have a covered wheelchair, then the cushion will be denied as not reasonable and necessary. If the member has a POV or a power wheelchair with a captain's chair seat, the cushion will be denied as not reasonable and necessary.

For members who meet coverage criteria for a power wheelchair and who do not have special skin protection or positioning needs, a power wheelchair with Captain's Chair provides appropriate support. Therefore, if a general use cushion is provided with a power wheelchair with a sling/solid seat/back instead of Captain's Chair, the wheelchair and the cushion(s) will be covered if either criterion 1 or criterion 2 is met:

1. The cushion is provided with a covered power wheelchair base that is not available in a Captain's Chair model – i.e., codes K0839, K0840, K0843, K0860, K0861, K0862, K0863, K0864, K0870, K0871, K0879, K0880, K0886, K0890, K0891; or
2. A skin protection and/or positioning seat or back cushion that meets coverage criteria is provided.

If one of these criteria is not met, both the power wheelchair with a sling/solid seat and the general use cushion will be denied as not reasonable and necessary.

If the member has a POV or a power wheelchair with a captain's chair seat, a separate seat and/or back cushion will be denied as not reasonable and necessary.

Medical Policy

Wheelchair Cushions/Seating Systems

A skin protection seat cushion (E2603, E2604, E2622, E2623) is covered for a member who meets both of the following criteria:

1. The member has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the member meets coverage criteria for it; and
2. The member has either of the following:
 - a. Current pressure ulcer or past history of a pressure ulcer (see diagnosis codes that support medical necessity section below) on the area of contact with the seating surface; or
 - b. Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift due to one of the following diagnoses - see Group 2 diagnosis codes that support medical necessity section below.

A positioning seat cushion (E2605, E2606), positioning back cushion (E2613, E2614, E2615, E2616, E2620, E2621), and positioning accessory (E0953, E0955, E0956, E0957, E0960) is covered for a member who meets both of the following criteria:

1. The member has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the member meets coverage criteria for it; and
2. The member has any significant postural asymmetries that are due to one of the diagnoses listed in Group 2 or 3 (see diagnosis codes that support medical necessity section below).

A headrest (E0955) is also covered when the member has a covered manual tilt-in-space, manual semi or fully reclining back on a manual wheelchair, a manual fully reclining back on a power wheelchair, or power tilt and/or recline power seating system.

If the member has a POV or a power wheelchair with a captain's chair seat, a headrest or other positioning accessory will be denied as not reasonable and necessary.

For combination skin protection and positioning items (HCPCS codes E2607, E2608, E2624, E2625), use one of the following (either 1 or 2):

- (1) one diagnosis code from Group 1 and one diagnosis code from Group 3 (total of 2 diagnosis codes); or,
- (2) one diagnosis code from Group 2.

Medical Policy

Wheelchair Cushions/Seating Systems

If a skin protection seat cushion, positioning seat cushion, or combination skin protection and positioning seat cushion is provided and if the stated coverage criteria are not met, it will be denied as not reasonable and necessary.

If a positioning back cushion is provided for a member who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

If a positioning accessory is provided and the criteria are not met, the item will be denied as not reasonable and necessary.

Code E1028 (swing away or removable mounting hardware upgrade) may be billed in addition to codes E0953, E0955-E0957. It must not be billed in addition to code E0960. It must not be used for mounting hardware related to a wheelchair seat cushion or back cushion code.

A custom fabricated seat cushion (E2609) is covered if criteria (1) and (3) are met. A custom fabricated back cushion (E2617) is covered if criteria (2) and (3) are met:

1. Member meets all of the criteria for a prefabricated skin protection seat cushion or positioning seat cushion;
2. Member meets all of the criteria for a prefabricated positioning back cushion;
3. There is a comprehensive written evaluation by a licensed/certified medical professional, such as a physical therapist (PT) or occupational therapist (OT), which clearly explains why a prefabricated seating system is not sufficient to meet the member's seating and positioning needs. The PT or OT may have no financial relationship with the supplier.

A custom fabricated seat cushion (E2609) and a custom fabricated back cushion (E2617) are cushions that are individually made for a specific beneficiary starting with basic materials including:

- a. liquid foam or a block of foam and
- b. sheets of fabric or liquid coating material.

The cushion must be fabricated using one or more of the following techniques to capture the individual shape of the beneficiary:

- molded-to-beneficiary-model technique;
- direct molded-to-beneficiary technique;
- CAD/CAM technology, which:

Medical Policy

Wheelchair Cushions/Seating Systems

- allows for the use of direct digital scanning of the beneficiary or of a mold made directly from the beneficiary;
- allows for direct milling of either (1) a beneficiary-specific model used to shape the cushion contour or (2) the cushion contours; or
- detailed measurements of the beneficiary used to create a configured cushion.

The cushion must have structural features that significantly exceed the minimum requirements for a seat or back positioning cushion. The cushion must have a removable vapor permeable or waterproof cover or it must have a waterproof surface. A custom fabricated cushion may include certain prefabricated components (e.g., gel or multi-cellular air inserts); these components must not be billed separately. If a custom fabricated seat and back are integrated into a one-piece cushion, code as E2609 plus E2617.

If a custom fabricated cushion is provided for a member who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

A seat or back cushion that is provided for use with a transport chair (E1037, E1038) will be denied as not reasonable and necessary.

The effectiveness of a powered seat cushion (E2610) has not been established. Claims for a powered seat cushion will be denied as not reasonable and necessary.

A prefabricated seat cushion, a prefabricated positioning back cushion, or a brand name custom fabricated seat or back cushion which has not received a written coding verification from the Pricing, Data Analysis, and Coding (PDAC) contractor or which does not meet the criteria stated in the Coding Guidelines section (see Policy Article) will be denied as not reasonable and necessary.

Wheelchair seat and back cushion codes are all-inclusive. Use of HCPCS code K0108 or any other HCPCS code to separately bill for added components such as the foam blocks, gel packs, air cells, or equivalent material is incorrect coding.

For HCPCS codes E2601, E2602, E2611, E2612 and E2619, diagnosis codes are not specified.

Specialty Evaluation

The specialty evaluation (also known as a comprehensive written evaluation) provides detailed information explaining why a prefabricated seating system is not sufficient to meet the beneficiary's seating and positioning needs. There must be a written report of this evaluation available on request. The PT, OT, or practitioner who performs the

Medical Policy

Wheelchair Cushions/Seating Systems

specialty evaluation may have no financial relationship with the supplier. (Exception: If the supplier is owned by a hospital, the PT, OT, or practitioner working in the inpatient or outpatient hospital setting may perform the specialty evaluation.)

ICD-10 Codes that Support Medical Necessity

Group 1 Paragraph:

For skin protection items (HCPCS codes E2603, E2604, E2622, E2623) one diagnosis code from either Group 1 or Group 2.

For combination skin protection and positioning items (HCPCS codes E2607, E2608, E2624, E2625), use one of the following (either 1 or 2):

1. One diagnosis code from Group 1 and one diagnosis code from Group 3 (total of 2 diagnosis codes); or
2. One diagnosis code from Group 2.

The presence of an ICD-10 code listed in this section is not sufficient by itself to assure coverage. Refer to Policy Guidelines above.

Note: When the beneficiary has a history of a healed pressure ulcer on the area of contact with the seating surface, ICD-10-CM code Z87.2 (in ICD-10-CM Codes that Support Medical Necessity section Group 1 codes) is the diagnosis code that must be appended to the claim. Do not use other ICD-10-CM codes in the Group 1 Codes to represent a history of a healed pressure ulcer on the area contact with the seating surface. Z87.2 is not for use to describe a current pressure ulcer on the area of contact with the seating surface.

Skin protection criterion 2a diagnosis codes (pressure ulcer codes).

Group 2 Paragraph

For skin protection items (HCPCS codes E2603, E2604, E2622, E2623) one diagnosis code from either Group 1 or Group 2.

For positioning items (HCPCS codes E0953, E0955, E0956, E0957, E0960, E2605, E2606, E2613, E2614, E2615, E2616, E2617, E2620, and E2621) one diagnosis code from either Group 2 or Group 3. Note: For HCPCS code E0955, a diagnosis code from Group 2 or Group 3 is only required if the beneficiary has a medically necessary manual wheelchair or power wheelchair with a sling/solid seat/back. If the beneficiary has a medically necessary manual tilt-in-space, manual semi or fully reclining back on a manual wheelchair, a manual fully reclining back on a power wheelchair, or a power tilt and/or recline power seating system, then a diagnosis code from Group 2 or Group 3 is not required for HCPCS code E0955.

For combination skin protection and positioning items (HCPCS codes E2607, E2608, E2624, E2625), use one of the following (either 1 or 2):

1. One diagnosis code from Group 1 and one diagnosis code from Group 3 (total of 2 diagnosis codes); or,
2. One diagnosis code from Group 2.

Group 3 Paragraph:

For positioning items (HCPCS codes E0953, E0955, E0956, E0957, E0960, E2605, E2606, E2613, E2614, E2615, E2616, E2617, E2620, and E2621) one diagnosis code from either Group 2 or Group 3. Note: For HCPCS code E0955, a diagnosis code from Group 2 or Group 3 is only required if the beneficiary has a medically necessary manual wheelchair or power wheelchair with a sling/solid seat/back. If the beneficiary has a medically necessary manual tilt-in-space, manual semi or fully reclining back on a manual wheelchair, a manual fully reclining back on a power wheelchair, or a power tilt and/or recline power seating system, then a diagnosis code from Group 2 or Group 3 is not required for HCPCS code E0955.

For combination skin protection and positioning items (HCPCS codes E2607, E2608, E2624, E2625), use one of the following (either 1 or 2):

- (1) one diagnosis code from Group 1 and one diagnosis code from Group 3 (total of 2 diagnosis codes); or,
- (2) one diagnosis code from Group 2.

Group 4 Codes:

Note: When the beneficiary has a history of a healed pressure ulcer on the area of contact with the seating surface, ICD-10-CM code Z87.2 (in ICD-10-CM Codes that Support Medical Necessity Section Group 4 codes) is the diagnosis code that must be appended to the claim. Do not use other ICD-10-CM codes in the Group 4 Codes to represent a history of a healed pressure ulcer on the area contact with the seating surface. Z87.2 is not for use to describe a current pressure ulcer on the area of contact with the seating surface.

ICD-10-CM Codes that DO NOT Support Medical Necessity

Group 1

Group 1 Paragraph

For the specific HCPCS codes indicated above, all ICD-10-CM codes that are not specified in the preceding section. Exception: For HCPCS code E0955, the ICD-10-CM codes specified in the preceding section are not an exhaustive list. See Group 2 and Group 3 in the preceding section, for additional information.

For HCPCS codes E2610 and K0669:
All ICD-10 codes

For HCPCS codes E2601, E2602, E2611, E2612 and E2619:
There are no specified ICD-10 codes

Documentation Requirements

Items in this policy may be subject to the Affordable Care Act (ACA) 6407 requirements.

The Affordable Care Act (ACA) 6407 requires that the treating practitioner conduct a face-to-face examination during the six month period preceding the written order. The documentation must be received by the provider prior to delivery for certain DME items. The documentation must describe a medical condition for which the DME is being prescribed.

Important Note:

Northwood's Medical Policies are developed to assist Northwood in administering plan benefits and determining whether a particular DMEPOS product or service is reasonable and necessary. Equipment that is used primarily and customarily for a non-medical purpose is not considered durable medical equipment.

Medical Policy

Wheelchair Cushions/Seating Systems

Coverage determinations are made on a case-by-case basis and are subject to all of the terms, conditions, limitations, and exclusions of the member's contract including medical necessity requirements.

The conclusion that a DMEPOS product or service is reasonable and necessary does not constitute coverage. The member's contract defines which DMEPOS product or service is covered, excluded or limited. The policies provide for clearly written, reasonable and current criteria that have been approved by Northwood's Medical Director.

The clinical criteria and medical policies provide guidelines for determining the medical necessity for specific DMEPOS products or services. In all cases, final benefit determinations are based on the applicable contract language. To the extent there are any conflicts between medical policy guidelines and applicable contract language, the contract language prevails. Medical policy is not intended to override the policy that defines the member's benefits, nor is it intended to dictate to providers how to direct care. Northwood Medical policies shall not be interpreted to limit the benefits afforded to Medicare or Medicaid members by law and regulation and Northwood will use the applicable state requirements to determine required quantity limit guidelines.

Northwood's policies do not constitute medical advice. Northwood does not provide or recommend treatment to members. Members should consult with their treating practitioner in connection with diagnosis and treatment decisions.

Northwood follows all CMS National Coverage Determinations (NCD) and Local Coverage Determinations (LCD), as applicable.
